# Mission Statement

*'Walther Strong has one single objective which is to provide solutions to your common construction problems...'* - Fred Dunn, MD

## MISSION

**Our mission is to provide a range of tapes and adhesives of the highest quality to builders merchants and construction companies. We aim to improve workflow, longevity and overall quality of the project.**

**We do this by combining the best raw materials and the finest products married in unique formulas, to provide innovative solutions to reoccurring or standardised problems.**

## VISION

**Our vision is to increase the standard of build quality at an uncompromising affordable cost.**

**Longevity and innovation is at the forefront of our vision to ultimately raise the bar of our sector.**

# PROJECT ACQUISITION

## Case Studies from 2023

During 2023 Walther Strong was commissioned by a range of clients to provide materials across the globe to assist with their construction builds.

Our company's tapes and adhesives are crafted with innovation at their core, redefining the standards of durability, versatility, and reliability. Infused with cutting-edge technology, our tapes have unparalleled adhesive strength, ensuring steadfast bonds across diverse surfaces and environments.

From heavy-duty industrial applications to delicate crafting needs, our adhesive solutions cater to a spectrum of requirements, offering precision, resilience, and ease of use. Our products are engineered to excel in challenging conditions, delivering superior performance that stands the test of time. With a commitment to quality and a dedication to meeting the evolving demands of our customers, our tapes and adhesives redefine adhesive solutions, setting a benchmark for excellence in the industry.

Ranging from bespoke innovative solutions to more legacy associated products, Walther Strong has now supplied over 10 countries.

## JEDDAH

A well known Jeddah project sourced Walther Strong HD Marine Acoustic tape for its intense properties to irradiate sound disruption within its marinas.

## SWITZERLAND

A Swiss Chalet sourced 5000 linear meters of Walther Strong Decktape Pro to enhance the life of the timber subframe.

## CANADA

Canadian Hotel 'Paradox' sourced Walther Strong Liquid Tape for its unique properties to be able to protect surfaces from accidental damage during refurbishment.

# PAINTING AND DECORATING

Your time is important to us!

What does Painting and Decorating have to do with tape??? Well... we will tell you. During our time in the industry, the constant feedback we received from tradesmen, was that protecting surfaces was a HUGE time consumer, and took up a large amount of their working week when on jobs. Not to mention tedious! Considering the issue, Walther Strong developed two products for the painting and decorating community to assist with this problem.

## H20

H20 liquid prime and mask is both a primer and a painting separator. Proven by contractors to be more cost-effective than masking up and saving large amounts of time through application. Plus its so satisfying to use.

## LIQUID TAPE

With naturally sourced materials and being completely biodegradable, this product can be classified as a natural based latex. Despite its yellow colouring and its polymer look this product won't just mimic the properties of masking tape but also solidify over 'hard to mask' areas making it the perfect addition to protecting surfaces in high activity areas. Bathrooms and shower basins get covered with the thick material and are left to dry. Once dried a protective barrier is formed leaving the surrounding areas to be modified without compromising the treated area. Once perfected it is simply peeled away.

# WOVEN MESH

## What makes our Scrim Tape different?

During 2023 Walther Strong set out to change how people thought about Scrim tape - it isn't just another item... it's an essential supporting product in the process of plastering. Therefore, after reaching out to the plastering community, we received feedback to make the mesh finer, with greater adhesive and stronger mesh fibres.

Our woven mesh range doesn't just stop at Scrim. We have been busy manufacturing ALKAMAXX coated render mesh, which has one of the best alkali-resistant coatings on the market, to ensure that there is no decay associated with rendering throughout the project's lifetime.

Finally our bespoke range of White Scrim and Ultra fine woven mesh has come to the forefront of our range getting new use cases in professions such as venetian plastering and reinforcement for concrete screed floors. A bespoke use for the Ultra fine mesh is to apply to houses from the Victorian era. The ultrafine mesh will reinforce the buildings structure and reduce the amount of multi-finish/plaster due to the smaller widths of the product.

**WALL HANG**  
Great for unused wall space and add ons (far right).

**TRIPOD**  
Perfect for desk counters and smaller areas (bottom middle left).

# INTERIOR TAPES

## Quality over Quantity

Our company takes immense pride in crafting the finest interior tapes available on the market today. What sets our products apart is a meticulous blend of cutting-edge technology, premium-quality materials, and a relentless commitment to excellence.

First and foremost, our interior tapes are engineered to deliver unparalleled performance. They're designed to withstand varying conditions, ensuring steadfast adhesion and durability. The adhesive we use is not only strong but also residue-free, easy and clean removal without any damage or unsightly marks left behind.

Moreover, our tapes undergo rigorous testing to meet and exceed industry standards. From superior tensile strength to exceptional flexibility, they're built to handle a wide array of applications, For painting, masking, or securing surfaces during renovation or construction.

What truly distinguishes our interior tapes, however, is our unwavering dedication to customer satisfaction. We actively listen to feedback, incorporating user insights into continuous improvements, ensuring that every roll of tape delivers consistent, reliable results.

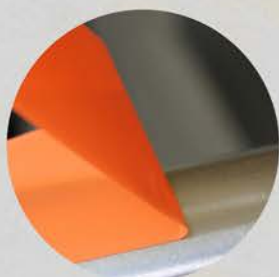

Ultimately, our commitment to innovation, quality, and customer-centricity is what makes our interior tapes the preferred choice for the professionals and DIY enthusiasts who seek to use nothing but the best for their projects.

# CLEANROOM TAPE

## FEATURES

- DESIGNED FOR RENOVATION OR PLASTERING TO PROTECT DELICATE OR IMPORTANT SURFACES
- HIGH ADHESION LEVEL
- INSULATOR UP TO 600V
- LEAVES NO MARKS OR RESIDUE WHEN PEELED OFF
- UNIQUE AND EASY TO TEAR TO SIZE BY HAND - TEAR RIBBING
- ROHS CERTIFIED AND MEETS COSHH REGULATIONS

CLEANROOM WAS ONE OF OUR MOST REQUESTED PRODUCTS OF 2023.

# DECKING

There IS nothing better...

Decktape<sup>®</sup> is the renowned global leader in joist and timber protection. It's a superior product to apply to wood than butyl or bitumen products which have been common applications for years.

When you take into consideration that decking projects cost anywhere from £3,000 up we couldn't understand why the timber subframe of the deck wasn't protected with the highest quality material. Decktape costs 3% of the overall decking project cost and will enhance your deck frame life for up to 15 years.

Our Timber Protection range is a one stop solution to Timber protection. Its a product that's, more environmentally friendly, cures into the wood, breathing with the timber, doesn't crack under weather changes, ensuring the composite materials are sat on sturdy subframes for years to come. We believe our timber tapes are a logical investment!

DID YOU KNOW...

That Millboard install over 19,500,000 liner meters of composite decking in the UK alone every year?

DeckTape PRO revolutionises timber framework protection by offering unmatched speed, eco-friendliness, and cost-effectiveness compared to any other like for like product. The innovative design enables rapid application due to having no liner on the tape, ensuring swift and efficient coverage of timber frameworks all on a 50M roll. With DeckTape, you get unbeatable efficiency, sustainability, and value for safeguarding your timber framework.

# LANDSCAPING

## Designed by the Pros

When looking at the landscaping industry we saw three sectors that were in desperate need of attention. They were:

- FENCING
- CLADDING
- SLEEPERS

For us, it's about sustainability, increasing our positive economic impact and saving the installer time where we can. Why paint a less effective timber protection onto your products that leach into your soils? Why spend hours putting multiple coats onto a product when you can spend 2 minutes taping your timber utilising your workforce? Why wait for your timber protection to dry?

We promise once you use our landscaping range, you'll never go back.

### DID YOU KNOW...

That the average lifespan of treated timber fencing is only 5 years without protection?

## FEATURES

- COMPLETELY UV STABLE
- APPROVED REPLACEMENT TO EPDM
- ADHESIVE BOND GUARANTEE FOR 25 YEARS
- SELF-SEALS AROUND ANY FASTENERS

CT65PRO20BLK	65MM X 20MTR BLACK	18

It's not all about what it looks like on the outside, if you have a stunning cladding board its worth investing on the substructure. Walther Strong Clad Tape® is a non-butyl self-sealing tape manufactured from a strong polymer acrylic adhesive, which gives the timber battens a completely waterproof and weatherproof seal. With a 25-year guarantee, Clad Tape® ensures your battens last as long as your composite cladding boards. Non-Butyl tapes are particularly suitable for this application as they are completely UV stable and keep their integrity for longer. This means that they have many advantages over both butyl and asphalt tapes. In addition to this, it is stable from -40C to +93C with no cracking, peeling or strength loss.

SLEEPER TAPE is an environmentally friendly, UV stable, non leaching material that will preserve the lifespan of your sleepers when used for vegetable patches, garden beds or support systems. It will act a timber treatment that will dwarf the capabilities of butyl tape and bitumen paint.

In addition to being made out of recycled materials this product has a guarantee of 25 years. Because of this, the environmental impact is minimal.

Our best performing video in 2023 has done over 6.5M views featuring Sleeper Tape!

# ROOFING

## No Compromise on Quality

In the realm of safeguarding your home, few things are as crucial as ensuring your roof or loft is equipped with top-tier fireproof and watertight products. These elements serve as stalwart defenders against the unpredictable forces of nature and unforeseen accidents, providing an invaluable layer of protection to your property and its inhabitants.

Fireproofing materials act as a formidable barrier against the ravaging spread of flames. In the unfortunate event of a fire outbreak, these materials serve as a crucial deterrent, limiting the blaze's ability to penetrate and engulf your home.

Simultaneously, watertight features fortify your roof against leaks and water ingress. Be it heavy rains, storms, or unexpected plumbing mishaps, these defenses shield your home from moisture damage, mould, and structural deterioration.

The significance of quality fireproof and watertight products in your roof or loft transcends mere functionality; it embodies a proactive approach towards safety and preservation. Investing in these elements isn't just a precaution; it's a commitment to securing your builds.

## FEATURES

- A "CLASS 0" FIRE-RESISTANT & PRESSURE-SENSITIVE ADHESIVE
- QUICK AND EASY TO APPLY WITH 3 SIZES AVAILABLE
- ACTS AS A BARRIER AGAINST MOISTURE, DUST AND MANY CHEMICALS
- STRONG, DURABLE AND LONG LASTING

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
ALU-FOIL/50X45	50MM X 45MTR SILVER	24
ALU-FOIL/75X45	75MM X 45MTR SILVER	16
ALU-FOIL/100X45	100MM X 45MTR SILVER	12

We use a unique adhesive formulation with this product. Not only is it 'class 0' fire resistant, but when peeling the tape from its backing, anti-tear properties prevent annoying snags when pulling long strips from its lining.

## FEATURES

- COMPATIBLE WITH ALL BRANDS OF DAMP PROOF MEMBRANES
- CODE COMPLIANT
- HIGHLY EFFECTIVE DAMP-PROOF SEAL
- COMPLETELY AIR-TIGHT SEAL
- DOUBLE-SIDED
- EXCELLENT ADHESION

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
WS-BT-BLK50X10P	50MM X 10MTR X 1.5MM BLACK	12

Highly effective at creating a continuous damp-proof/airtight seal between two sheets of plastic membrane. Butyl Tape is used when membrane joints cannot be avoided or around protrusions through the membrane.

- Compatible with all damp-proof membranes
- Completely airtight – highly effective damp-proof seal
- Code compliant
- DPM Jointing Tape
- Strong adhesion for overlapping

# RILICONE<sup>®</sup> RANGE

**Our No.1 priority is Reliability!**

Rilicone is 'Reliable Silicone' - why is this important??? With a history of having poorly manufactured silicones in varying mixtures and qualities, you never really know what you're going to get!

We have developed a new reliable premium silicone mixture with the following features:

- Food hygiene approved
- The Best Premium Quality Sealant
- Anti-Fungal
- UV & Aging Resistant
- High Adhesion – Durable, Soft Elastic Outstanding Resilience
- Low Shrinking During Curing

One reliable silicone for all types of applications including:

PVC, Timber, Aluminium, Exterior, Interior, High End Sanitary Situations, Natural Stone, Direct to Glass & Mirror. Saving you time, hassle AND money.

## FEATURES

- RELIABLE SILICONE YOU CAN DEPEND ON FOR ALL PURPOSES
- HIGH QUALITY PRODUCT WITH ZERO ACETATE
- A CRUCIAL PART OF THE RILICONE FAMILY
- COMES IN TRANSPARENT, WHITE AND BROWN

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
RIL-01	TRANSPARENT 310ML TUBE	24
RIL-02	WHITE 310ML TUBE	24
RIL-03	BROWN 310ML TUBE	24

Rilicone has been designed for a really premium finish that lasts a lifetime – getting the job done right the first time. Following this system ensures that each product is used at its best potential & and creates a complete germ-free, water-tight, professional finish that everyone needs in their builds.

Every silicone that claims to be anti-fungal is immediately contaminated when contact is made by anything unsterile (especially hands!). This is why the the RILICONE product range can ensure that your silicone is completely anti-fungal and won't go rotten just a few months down the line like most silicone jobs tend to do – and let's face it, what is worse that mouldy silicone around your nice sanitary ware?

Whole colour range can be found on P54.

## JOINT SPATULAS

37

### FEATURES

- 4 X JOINT SPATULAS MADE OF A FLEXIBLE PLASTIC
- ASSISTING IN CREATING A WATERTIGHT SEAL
- ENSURES NO GERMS ARE PUT INTO THE SILICONE
- CREATES A CLEAN AND CONSISTENT LOOK
- 16 DIFFERENT BEAD FINISHES

RESILIENT  
ROBUST  
RELIABLE

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
RIL-SPAT	4 PIECE (16 EDGE) JOINT SPATULAS	10

Pack of four joint spatulas made of flexible plastic, which are designed for pressing the fresh sealant to the surface to create a germ-free, water-tight seal and also has a clean and uniformly smooth finish.

### COMPLETE THE FAMILY WITH THE FOLLOWING STEPS:

- STEP 1** APPLY SILICONE IN AN EVEN BEADSPRAY SILICONE BEAD
- STEP 2** EVENLY WITH SMOOTHING SPRAY
- STEP 3** CHOOSE YOUR FINISHING BEAD FROM THE 16 DIFFERENT OPTIONS ON YOUR JOINT SPATULA SET
- STEP 4** RUN JOINT SPATULA DOWN THE SILICONE, PRESSING FIRMLY
- STEP 5** ALLOW SILICONE TO FULLY CURE (24 HOURS) BEFORE COMING INTO CONTACT WITH WATER

# ENVELOPE TAPES

## Its the finer details that matter

The ENVELOPE taping range are the products that you need to have at your disposal

In the construction industry, "envelope tapes" typically refer to specialised tapes used in building envelope systems. These tapes play a crucial role in creating a weather-resistant barrier, improving energy efficiency, and preventing air and moisture infiltration in buildings.

These tapes are designed to withstand varying weather conditions, UV exposure, and temperature fluctuations, providing long-term durability and maintaining the integrity of the building envelope. They contribute significantly to the overall performance and longevity of structures by protecting them from water damage, air leakage, and energy loss.

Buildings are long-term investments, and the tapes used in their construction need to withstand environmental factors like temperature changes, UV exposure, and weather conditions for many years. High-quality tapes are engineered to maintain their effectiveness over time, ensuring the building's continued protection and performance.

Tapes used in flashing and house wrap applications help prevent water intrusion. If water seeps into the building envelope due to tape failure, it can cause structural damage, mould growth, and deterioration of building materials, leading to costly repairs.

## FEATURES

- EXTRA THIN AND EXTREMELY STRONG
- COMPATIBLE WITH ISO 9354:1989 / DIN EN 12127 / DIN EN ISO 13934-1 / ISO 4603 / DIN 61101-1 / DIN ISO 9354
- NON-COMBUSTIBLE AND FIRE-RATED
- ANTI-MOULD PROPERTIES

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
WS-FR50X50	50MM X 50MTR FIRE-RATED	36

## CORE BENEFITS OF THE VEIL MESH

- Firewall fibreglass mesh veil for plasterboard joints
- Extremely strong
- DIN. EN12127
- B3/B7 Class
- ISO9354
- Non-Combustible
- Fire-Rated
- 50MMx50M

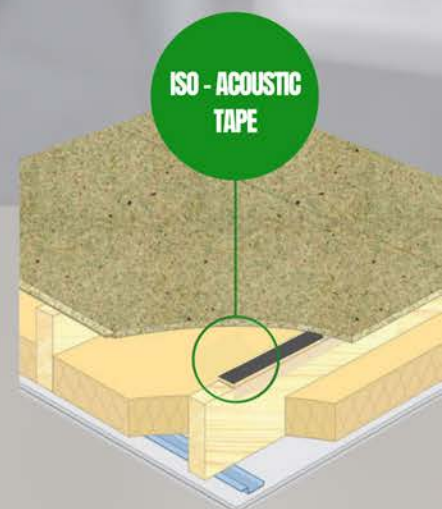

## FEATURES

- STRONG SELF-ADHESIVE FOR EASY & QUICK APPLICATION
- FAST AND EFFECTIVE ACOUSTIC TAPE
- USED ON ALL WALL & FLOOR SYSTEMS
- SUITABLE FOR TIMBER, STUDS & ZINC JOISTS
- REDUCES NOISE & VIBRATIONS
- TRIALLED & LOVED BY HOME BUILDERS AND LOFT CONVERTERS

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
WS-ACT30X30PR	30MM X 25MTR X 4MM BLACK	30
WS-ACT50X30PR	50MM X 25MTR X 4MM BLACK	18
WS-ACT70X30PR	70MM X 25MTR X 4MM BLACK	12
WS-ACT90X25PR	90MM X 25MTR X 4MM BLACK	10

- Most commonly used for sound proofing on loft conversions
- Easy to apply – self-adhesive backing
- Noise reduction acoustic joint tape
- Dramatically reduces noise & vibrations
- Helping you achieve Building Regulations Part E
- Help reduce flanking noise through structures & party walls
- PERFECT FOR STUDIOS AND REMOVING UNWANTED VIBRATIONS

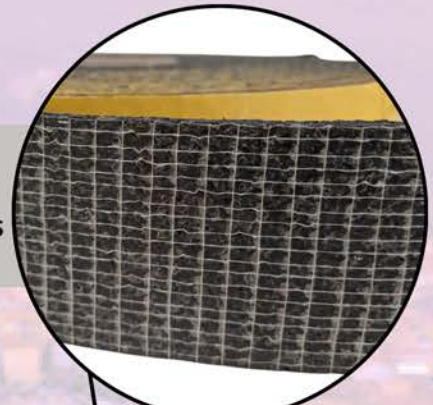

# HD SOUNDPROOFING TAPE

## FEATURES

- FAST AND EFFECTIVE ACOUSTIC RUBBER CRUMB TAPE
- USED ON ALL WALL & FLOOR SYSTEMS
- SUITABLE FOR MARINAS, TIMBER AND ALUMINIUM FRAMEWORK
- DRAMATICALLY REDUCES NOISE & VIBRATIONS
- USED IN LARGE PROJECTS AND CONSTRUCTION SITES
- SUITABLE FOR INTERNAL AND EXTERNAL APPLICATIONS

Soundproofing Marinas all over the Arab nations

# SELF - EXPANDING FOAM TAPE

42

## FEATURES

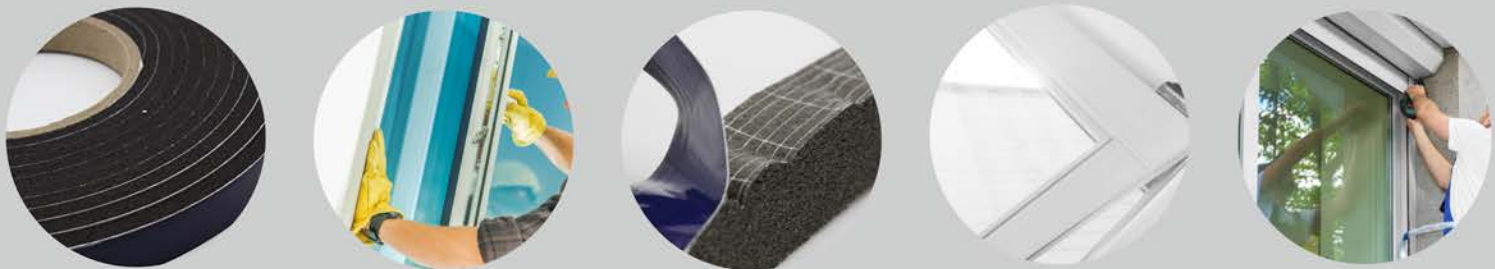

- WEATHERPROOF
- PERMANENTLY ELASTIC
- EXCELLENT FOR BOTH SMOOTH & UNEVEN SURFACES
- SELF-ADJUSTS
- SINGLE-SIDED ADHESIVE
- OPEN CELL POLYURETHANE FOAM
- PERFECT FOR COVERING SMALL AIR GAPS FOR WINDOWS AND DOORS

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
WS-SELFEF/33546	25MM WIDE X 4.6MTR	20
WS-SELFEF/33546-10	10MM WIDE X 4.6MTR	48

2 ROLLS WITH 2 DIFFERENT WIDTHS FOR YOUR CONVENIENCE!

BOTH 4.6M LONG  
BOTH HAVE EXPANSIONS BETWEEN 5mm - 35mm

## FEATURES

- THE #1 CHOICE FOR DOUBLE-SIDED TAPE
- LEAVES NO RESIDUE
- DURABLE
- REPOSITIONABLE
- NO SCISSORS REQUIRED - TEARS EASILY BY HAND

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
GALT-25X10/1	10MTR X 25MM DOUBLE-SIDED	72

AS SEEN ON TV

### DOUBLE SIDED INNOVATIVE DESIGN

The adhesive stays sealed in the channels on both sides

This channeled design allows for a completely straight tear by hand. Other benefits include:

- Repositionable
- Double Sided
- School Safe
- Waterproof
- Durable

The unique easy-tear design means you won't need to worry about scissors and it tears straight every time. Perfect for arts and crafts at home or at school, ideal for kids' projects. This double-sided tape can also be repositioned without the sticky residue that is often left by traditional tapes. The durable, waterproof adhesive will be great for making scrapbooks, hanging posters, packaging and a huge number of other uses! Use it to bond wood, plastic, card, metal, glass, leather, china, rubber and carpet.

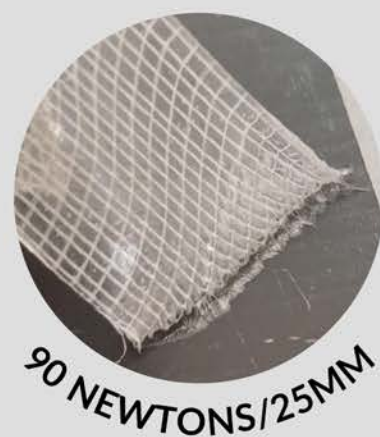

# MATI MOUNT ULTRABOND TAPE

44

## FEATURES

- BONDS GRP
- USED FOR MOTORWAY SIGNAGE
- EXTERIOR AND INTERIOR USE
- DESIGNED FOR SHEET METAL FABRICATIONS
- WORKS WITH PVC AND STAINLESS STEEL
- DOUBLE-SIDED TAPE
- WOVEN AND REINFORCED
- TENSILE STRENGTH IS EQUAL TO 90 NEWTONS/25MM
- EXTREMELY STRONG, AGGRESSIVE PERMANENT ADHESIVE
- WILL REPLACE MECHANICAL FIXINGS: RIVETS, SCREWS, BOLTS

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
WS-MATIMOUNT/25X25	25MM X 25MTR DOUBLE-SIDED	12

Mati Mount is technically part of the MATI range but for now is under the Walther Strong banner - incredible ability to bond heavy duty items together

## FEATURES

- DESIGNED TO CREATE AN AIRTIGHT BARRIER TO STOP UNWANTED AIRFLOW
- SEALS AROUND UNWANTED PENETRATIONS, PIPES, WINDOWS AND MEMBRANE OVERLAPS
- A SINGLE SIDED TAPE - COMES IN BLACK OR WHITE
- TEMPERATURE RESISTANCE FROM  $-40^{\circ}\text{C}$  to  $+100^{\circ}\text{C}$
- DURABLE BONDS FROM HIGH QUALITY ACRYLIC ADHESIVE
- HELPS TO PREVENT INTERIOR MOULD GROWTH

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
HW60X25BLK	HOUSEWRAP TAPE - WHITE - 60MM X 25M	10
HW60X25WHT	HOUSEWRAP TAPE - BLACK - 60MM X 25M	10

## DID YOU KNOW...

Housewrap is crucial in creating an air barrier to stop uncontrolled air flow – helping to prevent interior damage, mold growth, and increased heating and cooling costs. Ultimately, house wrap should boost a home's energy-efficiency and create a healthy, comfortable indoor environment.

# NON-BUTYL AIRTIGHT FLASHING TAPE

# 46

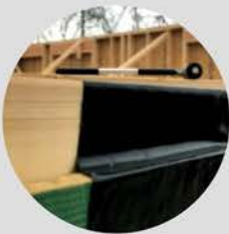

## FEATURES

- INSTANT BOND & GUARANTEED TO LAST 25 YEARS
- SEALS DOORS AND WINDOWS FAST & PERMANENT
- FULLY CURES IN 3-12 HOURS
- COMPLETELY UV RESISTANT & STABLE
- 100% AIRTIGHT AND 100% WATERTIGHT

A REVIEW OF HOUSEWRAP PERFORMANCE AND ITS IMPLIATIONS ON ENERGY SAVINGS

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
ES-100X20P	100MM X 20MTR BLACK	12
ES-150X20P	150MM X 20MTR BLACK	12
