WALTHER STRONG ®

2026

MERCHANT CATALOGUE

OUR MISSION

To provide premium tapes and adhesives that solve common construction problems, with commitment to quality and innovation at our core.

OUR VALUES

RELIABLE

Provide a premium range of specialist products, that dependably exceed market standards.

INNOVATIVE

Continuously develop forward thinking solutions driven by industry insights and user feedback to solve real construction challenges.

SUPPORTIVE

Contribute to the construction industry via knowledge, high quality products and a commitment to identifying the best solution.

H2O LIQUID MASK

KEY FEATURES:

- 2 in 1 primer and peelable mask
- Can be applied with a sprayer, roller, or brush
- Proven by contractors to be more cost effective than traditional masking up
- Achieve perfect paint separation and clean edges with minimal effort
- Simple 4 step process

Technical datasheets and product specifications available on request.

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
H20-PRIME-1LTR	1L TIN	6
H20-PRIME-5LTR	5L BUCKET	1

INTERIOR LIQUID TAPE

KEY FEATURES:

- Perfect for difficult shapes and/or rough surfaces
- Protective and durable yet flexible membrane
- Simply paint on, dry and peel off once the job is done
- Easy masking of difficult shapes and uneven edges
- Clean removal with no damage to the surface
- Regularly used as a protection to the surrounding area when sandblasting beams

Technical datasheets and product specifications available on request.

WSLT-PRO250	250ML TIN	12
WSLT-PRO1	1L TIN	6
WSLT-PRO2.5	2.5L TIN	1

PREMIUM MASKING TAPE

KEY FEATURES:

- High quality colour separators
- 14 day residue free and UV resistant
- High tensile strength to prevent unnecessary tearing
- Available in 3 popular widths: 25mm [1"] / 38mm [1.5"] / 50mm [2"]

This premium masking tape features a UV-resistant, high-tack hybrid adhesive, offering excellent tensile strength for tasks like masking, bundling, holding, and packing. It removes cleanly from a wide range of surfaces for up to 14 days without leaving any residue. Delivers strong adhesion on wood, glass, plastic, metal, and more.

Technical datasheets and product specifications available on request.

DRYLINING HD SCRIM

KEY FEATURES:

- Extra long 180m roll, ideal for large scale drylining projects
- Compatible with scrim tape guns such as the **Marshalltown MT72**
- High strength adhesive
- Heavy Duty
- Tested in both hot & cold environments
- Alkali resistant
- Prevents cracking in plaster

Technical datasheets and product specifications available on request.

HD RENDER MESH

KEY FEATURES:

- Heavy duty, super strong & flexible
- Approved for use with all major plasters and renders
- Durable - exceeds DIN 53857
- Easy to use - cut to size with knife or scissors
- Maintenance free - tear and water resistant
- The number 1 alkaline resistant coating in Europe

Technical datasheets and product specifications available on request.

ALKAMAXX ✓
APPROVED

Introducing our latest innovation in render mesh technology, engineered to redefine **durability** in the market. Our new render mesh range, boasts an unparalleled **alkali-resistant** coating, setting a new standard for longevity and performance in construction materials - IT'S ALKAMAXX.

Specially crafted to withstand the harshest alkaline environments, this advanced coating ensures exceptional **resilience** against deterioration, guaranteeing an extended lifespan for your renders.

Our render mesh range offers unparalleled protection, providing peace of mind for builders, architects, and homeowners alike.

ALKAMAXX MESH WORKS WITH ALL ETICS SYSTEMS

ULTRA-FINE VENETIAN MESH

KEY FEATURES:

- Tested and approved for use with all major plasters and renders
- Perfect for internal use where a premium finish is required
- Ultra thin mesh complementing venetian plastering
- Thin, durable and great to use with microcement
- Easy to cut and modify for bespoke jobs
- Great for covering internal cracks and creases
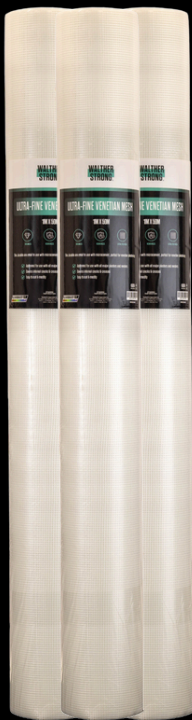

External Wall

HD REBARFLEX

KEY FEATURES:

- Eliminates heavy lifting and specialist tools, reducing labour time by up to 85%
- 2750N/50mm tensile strength which outperforms steel mesh in load-bearing tests
- Independently tested for superior crack resistance and long-term integrity - reducing screed cracks by 32%
- No sharp edges
- No risk of rust
- Alkali resistant with the specialist ALKAMAXX coating

SCAN FOR APPLICATION INSTRUCTIONS

- ✅ Screed & concrete
- ✅ Resin driveways
- ✅ Imprinted concrete
- ✅ Pathways

[Maximum concrete thickness: 100mm]

- ⊘ 50 ^{M2} PER ROLL
- ⊘ IDEAL FOR LOW/MEDIUM THICKNESS SCREEDS (LIMITED TO 100MM)
- ⊘ MUCH SAFER TO USE THAN STANDARD STEEL MESH
- ⊘ REPLACEMENT FOR THE A142

ROUGH SURFACE TAPE

KEY FEATURES:

- Engineered for both rough and smooth surfaces
- Suitable for internal and external applications
- Ideal for demanding applications
- Securely holds plastic sheets in place during rendering
- Ideal for masking on Bricks, PVC, & Gutters
- Weather resistant
- Residue free for 30 days

Rough Surface Tape has 70% more adhesive surface contact compared to standard duct tape

WALTHER STRONG

ISO-ACOUSTIC TAPE

KEY FEATURES:

- Strong self-adhesive for easy & quick application
- Fast and effective acoustic tape
- Used on all wall & floor systems
- Suitable for Timber, Studs, & Zinc Joists
- Reduces noise and vibrations
- Trialled & loved by home builders and loft converters

Technical datasheets and product specifications available on request.

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY

WS-ACT90X25PR	90MM X 25M X 4MM	10

HD ISO-ACOUSTIC TAPE

KEY FEATURES:

- Fast and effective acoustic rubber crumb tape
- Used on all wall & floor systems
- Suitable for Marinas, Timber, Aluminium Frameworks and Concrete Walls
- Dramatically reduces noise & vibrations
- Used in large projects and construction sites
- Suitable for internal and external applications
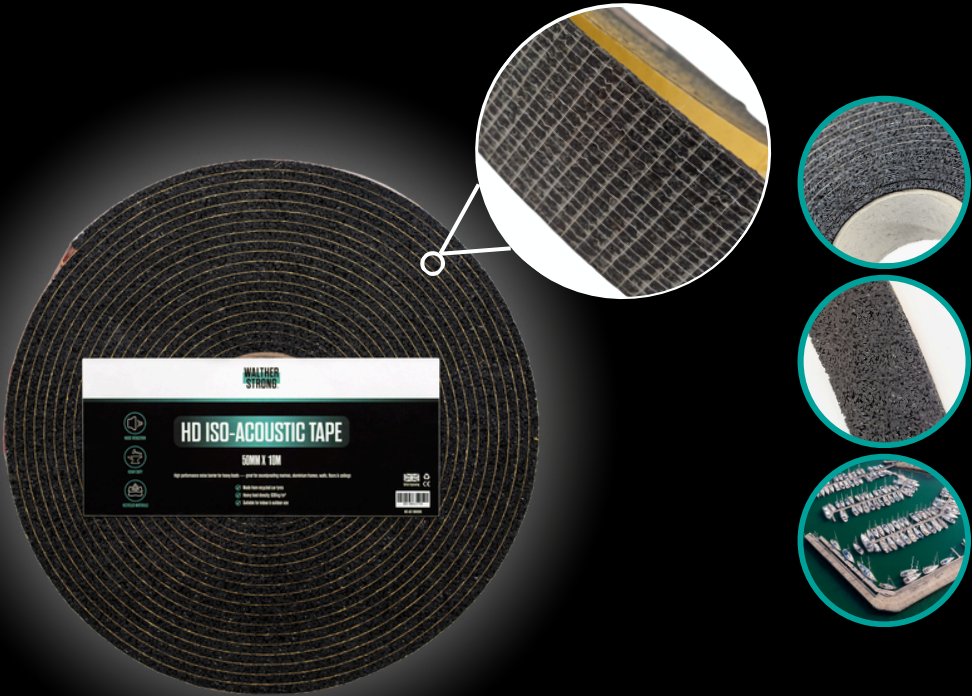

Technical datasheets and product specifications available on request.

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY
WS-ACT-50X10HD	50MM X 10M X 4MM	6

DOUBLE-SIDED TAPE

KEY FEATURES:

- Multi-surface tape for fast & strong fixings
- Strong adhesive
- Powerful instant grip
- Can be used on smooth and uneven surfaces
- Suitable for all surfaces - Timber, Mirror, Carpet, Vinyl, Foam Board, Metal

☑ **COUNTLESS APPLICATIONS - PERMANENT & TEMPORARY**
☑ **CAN BE USED FOR MOUNTING WITH STRONG HOLDING POWER**
☑ **IDEAL FOR TEMPORARY TILING**

Technical datasheets and product specifications available on request.

MATI MOUNT TAPE

KEY FEATURES:

- Bonds GRP
- Used for motorway signage
- Designed for sheet metal fabrications
- Works with PVC and Stainless Steel
- Double-sided tape
- Woven and reinforced
- Tensile strength is equal to 90N/25mm
- Extremely strong, aggressive permanent adhesive
- Will replace mechanical fixings: Rivets, Screws, Bolts

90 NEWTONS/25MM

WALTHER STRONG®

MATI MOUNT TAPE

25MM X 25M

HIGH STRENGTH | DURABLE | HEAVY DUTY

Bonds to GRP, PVC, stainless steel, and other surfaces. Strong hold without the need for mechanical fixings.

HD ALUMINIUM FOIL TAPE

KEY FEATURES:

- A "Class 0" fire-resistant & pressure-sensitive adhesive
- Engineered **rolled edges** improve durability, functionality, and overall finish
- Quick and easy to apply with 3 sizes available
- Acts as a barrier against moisture, dust and many chemicals
- Strong, durable and long lasting

APPLICATIONS

- ✓ Loft conversions
- ✓ HVAC systems
- ✓ Cold bridging with PIR boards
- ✓ Vapour seal

DPM BUTYL TAPE

KEY FEATURES:

- Now certified for BOTH Standard & Radon DPM - **2 products in 1**
- Compatible with all brands of damp-proof membranes
- Code compliant
- Highly effective damp-proof seal
- Completely air-tight seal
- Double-sided
- Excellent adhesion

DPM Butyl Tape is a high performance jointing tape that creates a continuous damp-proof and airtight seal between plastic membranes. Made from premium butyl rubber, it provides excellent adhesion, long lasting moisture protection, and easy application around joints, penetrations, and irregular surfaces.
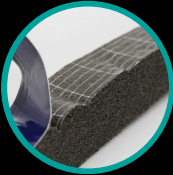

Technical datasheets and product specifications available on request.

PRODUCT CODE	PRODUCT DESCRIPTION	BOX QTY

AIRTIGHT TAPE

KEY FEATURES:

- Creates a completely airtight seal on all construction materials
- Temperature resistant from -40°C to +80°C (Single-Sided) & -20°C to +80°C (Double-Sided)
- High adhesive strength of 30N/25mm
- Specialist PVA scrim reinforcement NOT a cloth reinforcement
- Suitable for interior and exterior applications

Single-Sided Airtight Tape – Designed for sealing overlaps, joints, and penetrations in membranes and boards. It ensures reliable, long-lasting airtightness in loft conversions, extensions, and garden rooms.

Double-Sided Airtight Tape – Perfect for bonding and securing vapour control layers or membranes to structural elements where a clean, invisible seal is required.

Technical datasheets and product specifications available on request.

HD TIMBER COATING

KEY FEATURES:

- Rubberised waterproof liquid
- Quick and easy to apply
- Protects 150M of timber per 4KG
- Brush or roller application
- Single coat protection
- Low-VOC formulation, safe and reliable
- To use alongside Walther Strong Deck Tape

End grains, tops of posts, notches, noggins and wall plate / ledger boards quickly absorb moisture, leading to rot, decay and premature failure. While the right tape is the proven solution for joist tops, it can be difficult or impractical to apply on these awkward details. HD Timber Coating is designed for those hard to tape areas.

RILICONE

KEY FEATURES:

- Food hygiene approved for safe use in kitchens and food areas
- Premium quality sealant for professional results
- Anti-fungal to prevent mould and mildew
- UV stable and ageing resistant for long lasting performance
- High adhesion with durable, soft-elastic properties and outstanding resilience
- Low shrinkage during curing for a neat, reliable finish

Rilicone is **'Reliable Silicone'** - why is this important? With a history of having poorly manufactured silicones in varying mixtures and qualities, you never really know what you're going to get.

Technical datasheets and product specifications available on request.
