

AIRTIGHT TAPE

60MM X 25M

- ✓ SPECIALIST PVA SCRIM REINFORCEMENT
- ✓ TEMPERATURE RESISTANT
- ✓ ADHESION STRENGTH OF 30N/25MM

DOUBLE-SIDED
WS-DS-AIR60X25BLK

SINGLE-SIDED
WS-AIR60X25BLK

CREATES A COMPLETE AIRTIGHT SEAL AROUND PENETRATIONS, PIPES, WINDOWS, FACADE, AND MEMBRANE OVERLAPS

UV STABLE

HIGH STRENGTH ADHESIVE

HIGHLY FLEXIBLE

YOUR NEAREST MERCHANT:

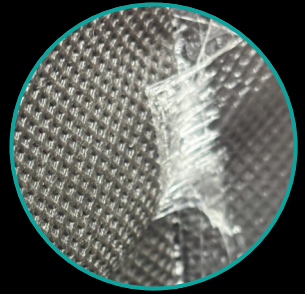

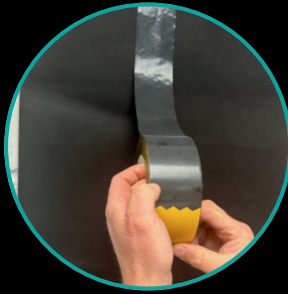

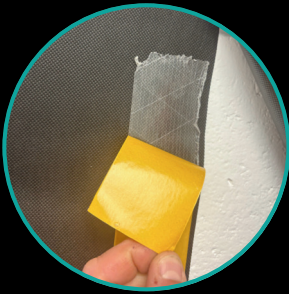

VAPOUR CONTROL TAPES

Single-Sided Airtight Tape – Ideal for sealing overlaps, joints, and penetrations in membranes and boards to ensure long-lasting airtightness in loft conversions, extensions, and garden rooms.

Temperature resistant from -40°C to $+80^{\circ}\text{C}$

Double-Sided Airtight Tape – Perfect for bonding and securing vapour control layers or membranes to structural elements where a clean, invisible seal is required.

Temperature resistant from -20°C to $+80^{\circ}\text{C}$

- Creates a completely airtight seal on all construction materials
- Specialist PVA scrim reinforcement NOT cloth reinforcement
- Suitable for interior and exterior applications
- High adhesive strength of 30N/25mm
