

HD ALUMINIUM FOIL TAPE

50MM - 100MM

THERMALLY CONDUCTIVE & VAPOUR-SEALING
ACTS AS A BARRIER AGAINST MOISTURE, DUST AND CHEMICALS

CLASS 0

DURABLE

WEATHER RESISTANT

YOUR NEAREST MERCHANT:

WALTHER STRONG®

Ideal for professional insulation and ductwork applications, this high performance Class 0 Aluminium Foil Tape is perfect for sealing rigid foam boards, HVAC systems, duct closures, and vapour sealing reinforced fiberglass duct boards. It's also highly effective in preventing cold bridging on PIR boards and is a go-to choice for loft conversions and other demanding environments.

The heavy duty foil layer acts as a robust barrier against moisture, dust, and chemicals—ensuring long term durability. Backed with a powerful pressure sensitive adhesive, this tape delivers a secure, lasting bond, making it the professional's choice for reliable vapour sealing and insulation.

100MM X 45M
ALU-FOIL/100X45
[BOX QTY 12]

75MM X 45M
ALU-FOIL/75X45
[BOX QTY 16]

50MM X 45M
ALU-FOIL/50X45
[BOX QTY 24]

- Strong vapour seal
- Thermally conductive
- Instant grab adhesive
- Tear resistant design
- Moisture & chemical barrier
- Perfect for HVAC & PIR boards
