

CLAD TAPE

50MM X 20M
CT50PRO20BLK

ENGINEERED TO OUTLAST YOUR CLADDING

PROTECTING YOUR BATTENS FROM WATER INGRESS AND UV DAMAGE FOR DECADES

WEATHER PROOF

UV STABLE

SELF SEALING

YOUR NEAREST MERCHANT:

WALTHER STRONG®

If you've invested in high-quality cladding boards, it's worth protecting the substructure that supports them. Walther Strong Clad Tape is a non-butyl, self-sealing tape made with a high strength polymer acrylic adhesive, creating a fully waterproof and weatherproof barrier over timber battens.

With a 25-year bond guarantee, Clad Tape helps your substructure last as long as your cladding. Unlike butyl or asphalt alternatives, non-butyl tapes are UV-stable, longer lasting, and maintain their integrity without cracking or peeling – even in extreme temperatures from -40°C to $+93^{\circ}\text{C}$.

STEP 1

Fix battens to wall

STEP 2

Apply Clad Tape

STEP 3

Fix boards to battens

WHAT WILL YOUR CLADDING LOOK LIKE IN 5 YEARS?

- ✔ Non-butyl & easy-to-tear
- ✔ Completely UV stable
- ✔ Water-tight & weather-proof
- ✔ Adhesive bond guaranteed for 25 years plus
- ✔ Approved replacement to EPDM
- ✔ Self-seals around fasteners
