# WALTHER STRONG®

Walther Strong Drylining HD Scrim is a high-strength fibreglass mesh tape designed to reinforce plaster coatings and prevent cracking. With its extra long 180m roll, it's ideal for large-scale projects and is fully compatible with scrim tape guns such as the Marshalltown MT72, making application fast and efficient.

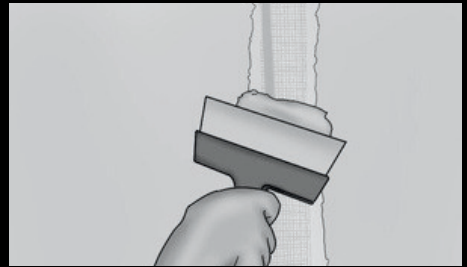

Built for professional dryliners, this heavy-duty tape features a strong adhesive that stays firmly in place and performs reliably in both hot and cold environments. Drylining HD Scrim has been used in various projects including castle renovations, office buildings, and skyscrapers—consistently delivering a clean, durable finish that lasts.

## 1 - Prepare Surface [Remove all debris & dust]

## 2 - Apply Tape [Apply along centre of joint]

## 3 - Press Firmly [Apply firm pressure along tape]

## 4 - Apply Joint Compound [ASAP after applying tape]

- Use with Marshalltown gun
- High strength adhesive
- Heavy duty scrim
- Alkali resistant
- Easy release from gun
- Tested in both hot & cold environments
