WALTHER STRONG®

Flame Fighter Fire Tape revolutionises fire-rated drywall finishing by replacing traditional paper or fiberglass tape with a self-adhesive, plaster-free alternative. Perfect for projects where speed, cleanliness, and code compliance matter, this innovative tape delivers a dust-free, durable finish suitable for walls and ceilings.

Certified to meet one and two hour fire resistance standards in both the U.S. and Canada, Flame Fighter Fire Tape is trusted for use in hospitals, schools, condos, mechanical rooms, and more.

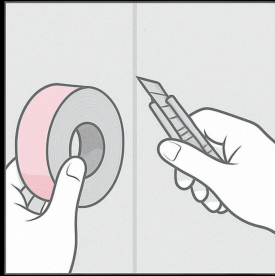

STEP 1 - CLEAN THE SURFACE

Remove dust, debris, or loose particles

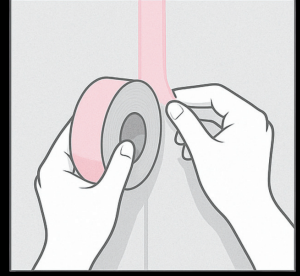

STEP 2 - CUT THE TAPE

Measure and cut to the desired length

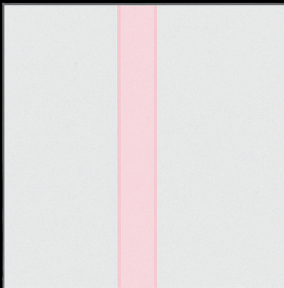

STEP 3 - PEEL BACKING

Peel off the backing to expose the adhesive

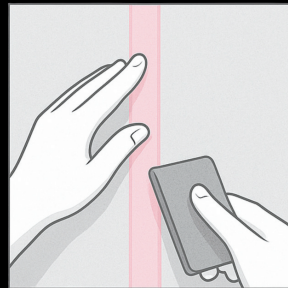

STEP 4 - APPLY TAPE

Apply the tape firmly over the joint or seam

STEP 5 - PRESS & SMOOTH

Use the applicator to press and smooth for full adhesion
