WALTHER STRONG®

The Walther Strong HD Render Mesh is a Grade 5, alkali-resistant fiberglass mesh engineered for superior reinforcement in ETICS (External Thermal Insulation Composite Systems). Tested to EAD 040016-01-0404 and compliant with European Technical Approval Guidelines (ETAGs), it offers outstanding performance in cementitious and cement-based render applications.

With over a decade of proven field use, ALKAMAXX has shown exceptional durability, crack resistance, and compatibility across a wide range of systems—making it the professional's trusted choice for robust render reinforcement.
